DETAILED ACTION

The request filed on July 12, 2004 for a Request for Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 09/995,085 is acceptable and a RCE has been established. An action on the RCE follows.

Allowable Subject Matter

Claims 1, and 5-14 are allowed.

The following is an examiner's statement of reasons for allowance: the references cited disclose a multilayer circuit board comprising a substrate having first and second surfaces and a projection, a multiplayer circuit, a second conductive layer, and some other claim elements. However, they do not disclose or render obvious in combination of the multiplayer circuit board having the first surface is higher level surface than a level surface of the second surface of the substrate, and the second surface further includes a side surface of the substrate, and the required angle between the first and second surfaces is an obtuse angle (claims 1, 5-7), a side surface of the projection extending at an obtuse angle relative to the first surface and simultaneously one of a pair of multiplayer circuits is electrically connected to the other one by a second conductive metal layer on the side and top surfaces of the projection (claims 8-14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
